GOVERNOR  
**MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY**  
GARY C. RIKARD, EXECUTIVE DIRECTOR

**Available Solid Waste Management Facilities in Impacted Counties**  
**December 24, 2015**

This information has been prepared by MDEQ to assist in responding to the damage needs from recent tornado events in Mississippi. There are several existing solid waste management facilities in these areas that should be available for disposal of debris subject to the operating conditions of the facility, the type of debris to be disposed, and the approval of the site operator. Additionally, MDEQ encourages interested persons to contact local officials to find out if other local waste collection points, such as transfer stations, are available for use by the public.

The solid waste facilities identified on the attached listings can accept certain approved solid waste materials as follows:

*Municipal Solid Waste (MSW) Landfills:* The MSW landfill sites are approved to accept all household garbage, mixed building debris, vegetative debris, commercial wastes, nonhazardous industrial waste, office wastes, packaging wastes and any other nonhazardous solid waste.

*Class I Rubbish Sites:* Class I rubbish sites are approved to accept all rubbish wastes and building and structural debris such as brick, wood, metal, concrete, roofing, siding, furniture, carpet and other types of building debris. The sites can also accept all class 2 rubbish such as vegetative wastes and inert debris such as concrete and brick. The sites cannot accept household garbage, household chemicals, containers, or certain industrial wastes for disposal.

*Class II Rubbish Sites:* Class II rubbish sites are approved to accept vegetative wastes and inert debris such as concrete and brick that can be separated from other building debris. The sites cannot accept mixed building debris, household garbage or household chemicals.

For contacts and information on other solid waste management facilities in counties not listed in the attached information, visit our website at: <http://www.deq.state.ms.us/solidwaste> or contact the MDEQ Solid Waste Management Programs at 601-961-5171.

MDEQ may also be working with the local government to evaluate and approve temporary storm debris management sites in affected counties that are not included on the attached listing of permanent permitted solid waste facilities. Additional information on these sites will be provided as it is made available.

**Solid Waste Disposal Sites in the Impacted Counties  
Including Benton, Coahoma, Marshall, Panola, Quitman  
and Tippah Counties**

Below are the commercial solid waste disposal facilities known or believed to be open and accepting storm generated wastes in Benton, Coahoma, Marshall, Panola, Quitman and Tippah Counties and the surrounding area. Additional and temporary sites may be added as necessary.
