 1 - Confirmed Pursuing ARRA Funding, But Facilities Plan Not Yet Submitted
 2 - Facilities Plan Submitted, but Not Yet Approvable
 3 - Facilities Plan Approvable (FONSI Issued), but No Other Submittals
 4 - Facilities Plan Approvable (FONSI Issued) and Loan Application and/or Clear Sites Submitted (but not Plans/Specs)
 5 - Facilities Plan Approvable (FONSI Issued) and Plans/Specifications Submitted
 6 - Facilities Plan Approvable (FONSI Issued) and Plans/Specifications and Loan Application Submitted
 7 - Facilities Plan Approvable (FONSI Issued) and Plans/Specifications, Loan Application, and Clear Site Certifications Submitted

In accordance with the Final Amendment No. 1 to the FY-2009 Water Pollution Control Revolving Loan Fund Intended Use Plan (IUP) **WPCRLF/ARRA funds will be awarded "first-come, first-served"** to any projects on the "ARRA Project List" portion of the Priority List which complete all applicable program requirements and become ready to proceed to advertisement for construction bids. This is to help ensure that priority is given to those projects "that are ready to proceed to construction within 12 months of the date of enactment of the Act," as required by ARRA.

In order to comply with procedural requirements mandated by EPA, this Project Progress/Funding Status List has been developed and is being made available for public review. The table reflects 1) a list of all projects from the ARRA Project List, which have confirmed an intent to proceed to secure the available funding, 2) the current status (as of the date indicated in the title) of their progress toward submittal of the four primary components required prior to funding, and 3) the "Funding Limits," or points at which the available ARRA funds and WPCRLF funds would be exhausted if the projects are funded in the order listed. The projects are listed according to one of seven submittal categories, and then alphabetically within each category. Generally, the higher the category number, the higher a project is on the list, and the closer that project may be to securing funding. **However, in accordance with the IUP's priority system, if projects shown below the Funding Limits on this list (or any other projects on the IUP's ARRA Project List not yet listed here) accelerate progress they may secure funding prior to those shown above the Funding Limits.**

** Funding Limit 1 is based on the ARRA EPA Capitalization Grant application amount of \$35,308,350. Funding Limit 2 is based on an FY-2009 Assumed Available Funds total (both WPCRLF and ARRA) of approximately \$93,000,000.
